

Recent Events

EMODnet participated in the following recent events to promote the important role of marine data in growing the blue economy.

- 3rd Atlantic Stakeholder Platform Conference, 27 September, Dublin, Ireland

The 3rd Atlantic Stakeholder Platform Conference promoted entrepreneurship and innovation in the Atlantic area. EMODnet are organizing a workshop “Open Data for Blue Growth in the Atlantic Area.” The workshop will consider progress, challenges and opportunities associated with current efforts to streamline the marine knowledge value chain: from observation and collection of marine and coastal data to information, products and services for intermediate and end-users. Further information and the programme is available [here](#).

- SeaTech Week 10-14 October, Brest, France

EMODnet was present at a workshop organised by EuroGOOS in the context of the H2020 project COLUMBUS. The workshop considered the important role of SMEs as intermediary service providers using publicly available marine data resources to create new products and services for the maritime sector. Further information and registration is available [here](#).

- Committee of the Regions presents ‘Marine Data for the Blue Economy’ 13 October Brussels

The importance of marine data in the development of the ‘blue’ economy at local and regional level was discussed at a workshop organised by the European Committee of the Regions in Brussels on 13 October 2016. EMODnet will be present and will demonstrate forthcoming updates, including a new GIS based Map Viewer allowing visualisation of multi-thematic data layers. Further details can be found [here](#).
